

FOCUS CIRCLE

Weekly focus checklist

A short reset before the week fills itself. Check a box only after you have done the thing.

Prepare

- Write the one outcome that would make this week honest.
- Cross out what is noise.
- Leave the rest for Later.

Transform

- Now holds one card.
- The queue lives in Next.
- One protected block is on the calendar.
- Open loops are captured before they interrupt.
- A shutdown notes where you stopped.

Emerge

- One person can see the plan.
- The help you want is named.
- Taking over is named too.

Soar

- One board review is on the calendar.
- One next step is small enough for seven days.

Educational workshop tool. Not therapy and not a productivity certification.

FOCUS CIRCLE

Kanban starter

Now holds one card. Next is the queue. Later is allowed to wait. Do not write passwords or account numbers here.

The board

Now	Next	Later

Focus tools

- One protected block:
- One open loop captured:
- One shutdown:

If everything is Now, nothing is.

FOCUS CIRCLE

Support-circle card

Show this to the person who will help. Support is welcome. Taking over is a different thing.

Who I will tell**The help I want****The help I do not want****The sentence I can say**

Keep the decision with you.

FOCUS CIRCLE

Action plan

Three commitments for the next seven days. The filled plan on the workshop page can also be printed from your browser.

One priority

The outcome that would make this week honest.

One board change

The card that belongs in Now, and what moves to Later.

One person to tell

Who should see the plan, and what help you want.
