ROALLA

EXECUTIVE GROWTH LEADERSHIP DECISION GUIDE

Fractional Interim or Full Time Executive Leadership

Select the leadership model that fits the mandate urgency economics and stage

Prepared for founders, owners, boards, chief executives, investors and functional leaders in growth companies

Prepared by ROALLA Transformation and Technology Advisory

Status date: 25 October 2026

Purpose

This guide helps owners and boards choose among fractional, interim and full-time executive leadership. It evaluates the nature and duration of the mandate, authority, availability, operating integration, economics, knowledge transfer and the company's readiness to use senior leadership effectively.

EXECUTIVE DECISION DASHBOARD

Management View at a Glance

The right executive model depends on the work, not status. Fractional leadership can add scarce expertise and cadence, interim leadership can stabilize or transform, and a full-time executive can build durable capability. Each requires real authority, executive access and explicit outcomes.

Executive question	ROALLA view	Decision implication
Is fractional leadership a consultant?	**NO**	A fractional executive holds defined accountability and authority, not only advisory scope.
Should interim leaders avoid long-term decisions?	**NO**	They must protect enterprise value while creating a transition path.
Is full-time automatically more committed?	**NO**	Fit, mandate, incentives and performance determine commitment.
Can a company hire before defining the role?	**NO**	Model selection follows a clear mandate and readiness assessment.
What should management authorize now?	**PURSUE**	A mandate-led comparison of fractional, interim and full-time options.

Recommended Management Posture

Use the decision model to convert management confidence into verified evidence, explicit ownership and sequenced action. A weighted score supports prioritization, but a material hard-gate failure should override an attractive average.

Questions to Put to the Leadership Team

1. Is the mandate diagnostic, transitional or enduring?
2. How much availability does the operating reality require?
3. What authority must the leader exercise?
4. Can the organization act on executive decisions now?
5. Which capabilities must remain internally?
6. What is the total cost of each option?
7. How will performance be evaluated consistently?
8. When will the model be reviewed or converted?

EXECUTIVE DECISION MODEL

The Eight Executive Model Selection Gates

These gates distinguish a needed executive accountability from an attractive title. Use them to test mandate, authority, capacity, interfaces and evolution before recruiting or reorganizing.

Stage	Gate	Required conclusion	Decision evidence
01	Need	The executive accountability is real	Outcomes, decisions, gaps and urgency
02	Duration	The mandate horizon is understood	Diagnostic, transition, build, run or succession
03	Authority	The model can make required decisions	CEO access, budget, people and escalation
04	Availability	Time matches operating demand	Cadence, incidents, customers, travel and team needs
05	Integration	The leader can operate as part of the team	Forums, information, relationships and accountability
06	Economics	Total value and cost are credible	Fees, compensation, ramp, opportunity cost and risk
07	Transfer	Capability will remain in the company	Documentation, coaching, succession and handoff
08	Conversion	Review and transition options are explicit	Extend, convert, recruit, hand off or stop

Decision Rule

A failed hard gate moves the initiative to Prepare or Monitor. A strong narrative, senior sponsor or attractive market cannot replace missing authority, evidence, delivery capacity or operating control.

SECTION 01

Readiness Framework

Translate ambition into a shared executive view of value, evidence, capability and risk.

Readiness Dimensions

No.	Decision area	Management evidence	Status
01	Mandate and urgency	Outcomes, decisions, horizon and immediate pressure	**Confirmed / Developing / Gap**
02	Authority and access	Executive standing, information, budget and people	**Confirmed / Developing / Gap**
03	Time and integration	Availability, cadence, relationships and responsiveness	**Confirmed / Developing / Gap**
04	Capability fit	Experience, pattern recognition and leadership style	**Confirmed / Developing / Gap**
05	Economics and risk	Total cost, value, continuity and dependency	**Confirmed / Developing / Gap**
06	Transition and transfer	Internal capability, succession, handoff and conversion	**Confirmed / Developing / Gap**

Evidence Standard

Assessments should distinguish verified evidence from management confidence. Where evidence is incomplete, record the gap, owner, completion date and decision that depends on it.

STRATEGIC READINESS DEPENDENCIES

What Readiness Depends On

Dependency	Why it matters	Evidence management should expect
Need	The executive accountability is real	Outcomes, decisions, gaps and urgency
Duration	The mandate horizon is understood	Diagnostic, transition, build, run or succession
Authority	The model can make required decisions	CEO access, budget, people and escalation
Availability	Time matches operating demand	Cadence, incidents, customers, travel and team needs
Integration	The leader can operate as part of the team	Forums, information, relationships and accountability
Economics	Total value and cost are credible	Fees, compensation, ramp, opportunity cost and risk
Transfer	Capability will remain in the company	Documentation, coaching, succession and handoff
Conversion	Review and transition options are explicit	Extend, convert, recruit, hand off or stop

ROALLA Interpretation

Dependencies should be evaluated as a connected system. A weakness in ownership, data, architecture, delivery or governance can change the economics and risk of an otherwise attractive initiative.

SECTION 02

Detailed Readiness Assessment

Convert executive intent into verifiable requirements, accountable evidence and clear remediation actions.

READINESS CHECKLIST

Mandate and Model Selection

Completion standard Mark Ready only when the supporting evidence has been verified. Assign an evidence owner to every open item.

Gate	Readiness requirement	Ready	Gap	Evidence owner
A01	The company can define the outcomes and decisions requiring executive leadership.	☐	☐	_____
A02	The mandate distinguishes diagnose, stabilize, transform, build and operate work.	☐	☐	_____
A03	Urgency and expected duration are realistic.	☐	☐	_____
A04	Required availability is based on actual operating demand.	☐	☐	_____
A05	The leader will receive appropriate authority and executive access.	☐	☐	_____
A06	Internal leaders understand how the role changes their accountabilities.	☐	☐	_____
A07	The company has capacity to act on senior recommendations and decisions.	☐	☐	_____
A08	Candidate evaluation uses the same outcomes across leadership models.	☐	☐	_____
A09	Economics include ramp time, hiring risk, benefits, transition and opportunity cost.	☐	☐	_____
A10	The selected model fits both company stage and leadership maturity.	☐	☐	_____

READINESS CHECKLIST CONTINUED

Engagement Governance and Transition

Completion standard Use Gap to create a dated remediation action and identify the management decision that cannot proceed.

Gate	Readiness requirement	Ready	Gap	Evidence owner
B01	The mandate states deliverables, outcomes, authority and explicit exclusions.	☐	☐	_____
B02	Meeting and decision cadence integrates the leader into the executive team.	☐	☐	_____
B03	Availability and response expectations are defined.	☐	☐	_____
B04	Conflicts of interest, confidentiality and data access are controlled.	☐	☐	_____
B05	Performance is reviewed against enterprise outcomes, not activity.	☐	☐	_____
B06	Knowledge transfer and internal leader development are expected from the start.	☐	☐	_____
B07	Continuity exists for absences, incidents and engagement end.	☐	☐	_____
B08	The company owns work products, decisions and essential records.	☐	☐	_____
B09	A review date determines extend, convert, recruit, hand off or stop.	☐	☐	_____
B10	Transition planning begins before the engagement's final weeks.	☐	☐	_____

WEIGHTED EXECUTIVE ASSESSMENT

Readiness Scorecard

Dimension	Weight	Evidence standard	Score	Status
Mandate and urgency	20%	Outcomes, decisions, horizon and immediate pressure	__/20	Strong / Developing / Gap
Authority and access	20%	Executive standing, information, budget and people	__/20	Strong / Developing / Gap
Time and integration	15%	Availability, cadence, relationships and responsiveness	__/15	Strong / Developing / Gap
Capability fit	15%	Experience, pattern recognition and leadership style	__/15	Strong / Developing / Gap
Economics and risk	15%	Total cost, value, continuity and dependency	__/15	Strong / Developing / Gap
Transition and transfer	15%	Internal capability, succession, handoff and conversion	__/15	Strong / Developing / Gap
TOTAL	100%	Weighted executive assessment	__/100	Pursue / Prepare / Monitor

Decision Thresholds

Score	Posture	Management decision
75 to 100	**PURSUE**	Proceed to bounded execution subject to no hard-gate failure.
50 to 74	**PREPARE**	Complete a focused readiness plan before major commitment.
0 to 49	**MONITOR**	Resolve foundational gaps before investing further.

A single material hard-gate failure overrides the weighted score. ROALLA also applies judgment where administrative readiness is high but strategic value, adoption or commercial viability is weak.

SECTION 03

Execution and Advisory Roadmap

Build evidence and decision clarity before changing titles or recruiting. Use the first 90 days to prove the executive resourcing model in the company's real operating context.

Recommended 90 Day Mobilization

Timing	Focus	Key activities	Management output
Days 1 to 15	Clarify	Confirm growth objectives, current executive resourcing model, decision pressure and executive sponsor.	Approved diagnostic mandate
Days 16 to 35	Assess	Interview leaders, review evidence, map accountabilities and identify hard gaps.	Current-state evidence map
Days 36 to 55	Design	Develop practical options with mandate, interfaces, capacity, economics and risk.	Decision-ready options
Days 56 to 75	Validate	Test the preferred model through real decisions, management forums and team feedback.	Validated leadership model
Days 76 to 90	Mobilize	Approve owners, measures, communication, transition actions and review dates.	90-day activation plan

Twelve to Twenty Four Month Path

- Quarter 1: clarify the executive resourcing model, decision rights, interfaces and immediate capacity gaps.
- Quarter 2: embed management cadence, measures, delegation and leadership-team working practices.
- Quarters 3 and 4: adjust spans, roles and succession as scale and complexity increase.
- Year 2: review executive architecture against strategy, performance, risk and the next growth stage.

ROALLA ADVISORY MODEL

How ROALLA Can Help

ROALLA brings an independent transformation and technology perspective to fractional interim and full-time executive selection. The objective is a leadership system that converts strategy into accountable decisions, scalable execution and measurable enterprise value.

ROALLA workstream	Executive value
Executive diagnostic	Assess strategy, growth stage, operating complexity, leadership load and material gaps.
Mandate design	Define outcomes, scope, authority, decision rights and explicit non-accountabilities.
Operating model	Align functions, forums, information flows, escalation paths and management cadence.
Technology and product alignment	Connect architecture, delivery, product, commercial and operational leadership.
Role and capacity options	Compare combined, fractional, interim and full-time structures using evidence.
Scorecards and incentives	Translate enterprise priorities into balanced executive outcomes and measures.
Selection and onboarding	Build role briefs, evaluation criteria, interview evidence and first-100-day plans.
Evolution assurance	Monitor effectiveness, challenge gaps and reset roles as strategy and scale change.

Recommended Initial Mandate

- Four-week executive structure and accountability diagnostic.
- Decision-rights map and leadership capacity assessment.
- Recommended executive resourcing model with role mandates, interfaces and transition risks.
- Executive readout and 90-day activation roadmap.

CONTROL FRAMEWORK

Key Risks and Controls

Risk	Exposure	ROALLA control
Advisor ambiguity	The leader is accountable in name but lacks authority.	Define executive decision rights.
Availability mismatch	Part-time time cannot meet operating demand.	Model real cadence and escalation needs.
Permanent interim	A transition role drifts without an end state.	Use dated outcomes and conversion decisions.
Candidate shortcut	Model choice replaces rigorous selection.	Assess leadership evidence and fit.
Internal resistance	Leaders do not accept the executive mandate.	Align roles and communicate sponsorship.
Knowledge rental	Capability leaves with the executive.	Require transfer, coaching and documentation.
False economy	Lowest cash cost creates delay or risk.	Compare total value and opportunity cost.
Poor handoff	Recruitment starts too late.	Plan succession from the beginning.

Professional Advice

Qualified legal, privacy, security, tax, accounting, employment and regulatory advisors should validate matters within their professional scope. ROALLA coordinates those inputs with technology strategy, architecture, commercialization, governance and transformation decisions.

OFFICIAL EVIDENCE BASE

Selected Official Sources

These sources support the management principles summarized in this guide. Standards, laws, guidance and organizational obligations continue to evolve and must be confirmed for the specific context before acting.

McKinsey Redefining the Role of the Technology Officer. Official source — Executive perspective on the technology leader as business strategist, transformation leader and builder of organizational capability.

McKinsey Why You Need a CTO and How to Make the Role Successful. Official source — Guidance on the CTO mandate, organizational interfaces, authority and conditions required for success.

Microsoft Cloud Adoption Framework RACI Alignment. Official source — Examples for assigning accountable, responsible, consulted and informed roles across strategy, governance, platforms and operations.
